Meet You This Mid-June!

Canton Fair 2020 Held Online

中国进出口商品交易会
CHINA IMPORT AND EXPORT FAIR
Since 1957

The current global pandemic has brought a huge impact on the world economy and international trade and investment. In order to cope with this situation, 127th China Import and Export Fair will be held online for 10 days from June 15 to 24.

As an exhibitor of Canton Fair for many years, Wonder group has now entered the intensive preparatory stage. High-efficient motors, pumps, cast iron and stainless steel castings and other symbolic products of the group will all appear in

this online exhibition! With the help of HQ pictures, short videos and other methods, Wonder group will show the information of enterprises, products and production lines that purchasers pay close attention to. Thanks to the 10-day, 24-hour online live broadcast of the exhibition, Wonder group will have more opportunities to communicate with buyers from all over the world.

Please pay attention to the follow-up information of Wonder group!

Strategic Partnership of Wonder & EXIM Bank carried on the Discussion

In the afternoon of April 23, Wang Xuguo, President of Fujian branch of The Export-Import Bank of China, and Wang Guoxiao, Director of Fuzhou Bureau of Industry and Information Technology and other leaders visited Wonder Electric for investigation. Chairman of the group Yu Zhuangfei, General Manager of Wonder Electric Xu Zhenxi, and relevant staff of the group attended the discussion.

It is reported that Wonder Electric and EXIM Bank are actively promoting the strategic partnership between the two parties. In light of the severe global epidemic challenges, Wonder insists on implementing strict epidemic prevention measures on the one hand, on the other hand, actively resumes work and stabilizes the scale of production and sales. These measures, highly in line with the special period of the country to stabilize the basic foreign trade policy direction, have been highly recognized by the leadership. Good cooperation with EXIM Bank will also provide a great boost to the smooth development, production and sales of Wonder, and assist in promoting Wonder Electric to complete our corporate mission.

On April 23, Guo Xuebin, Director of the talent work office of the organization department of Fujian provincial party committee and member of Ningde municipal party committee and other leaders visited Dayu Precision Casting for guidance. It is reported that in April, the production capacity of Dayu Precision Casting hit a new high. In the current epidemic challenges, Dayu realized an intensive shipment of iron products to Japan.

On April 27, Huang Qinwang, Secretary General of Nan'an Equipment Industry Association, visited and guided Lisong Industry. As one of the core members of Wonder group, Lisong Industry is a professional foundry enterprise with high technology and high standards, setting scientific research, production, processing and sales as one. In February this year, Lisong Industry is one of the fastest enterprises in the domestic foundry industry to actively resume work and strict epidemic prevention at the same time. Lisong has resumed production capacity months ago, and the current production and sales scale is expanding again.
